COMMENTS FROM THE TOWN MANAGER'S OFFICE

Director of Civil Defense and Public Safety, Stephen Jacobs, has appointed Roland Glines as Deputy Director. They have been developing an organizational plan and appointing staff members. Announcement of these appointments will be made as soon as completed. A meeting was held in the Selectmen's office on Tuesday evening, conducted by the Director, with the Deputy Director, staff members, and Town Manager present. Plans were discussed on the various phases of organizing and establishing a workable Civil Defense.

The first step will be to prepare a questionnaire for distribution to the citizens of Bethel. The questionnaire is being sent out so that information may be compiled and evaluated on persons that can aid and assist in the forming of our local C. D. unit. The Bethel Jaycees have volunteered to assist in the project of procuring information. It will be appreciated by your C. D. Staff if each person will fill out and return the questionnaire as soon as convenient after receiving same. The date of distribution has not yet been set, but is expected to be within the next 30 days.

The next meeting of the Director and his staff is set for Nov. 15th.

Civil Defense is multi-purpose. It not only serves in time of national emergency, but in local emergency as well.

Sincerely,
Harold L. Bean

Mrs. Caroline Merrill, chairman of the Membership Drive, reported that 315 membership tickets had been sold to date. The children who sold the most tickets are as follows: Peter Kailey, Crescent Park; Ralph Swan, East Bethel; and Mabel Clough, West Bethel.

The Halloween Chairman, Mrs. Sally Benneck, was absent but good progress was reported. It was voted to give \$75 to the schools for Halloween and Christmas.

A discussion was held on hot lunches and many parents felt that the schools should have milk coolers, as the milk is often warm by the time hot lunch is served. This is to be kept in mind by the Executive Committee for possible future action.

Mrs. Samuel Timberlake representing the Dental Health program, spoke to the group on the importance of corrective care of teeth, a survey of which was started in the 2nd grade this week, and mainly on the benefits our children could receive from Sodium Fluoride treatments to be given the 2nd, 5th and 8th grades.

Bethel and surrounding areas were fortunate to be accepted by the state for the Fluoridation Program but the Dental Health Council needed the backing of some organization as an additional \$280 had to be raised. The PTA voted to donate \$180 to this program, becoming a co-sponsor for this year. All children in the age group are eligible.

The 3rd grade won the attendance banner.

We began the meeting with a worship service led by Judy Judkins and Carol Flint. Next week it will be led by Timmy Brooks and Ed Tibbetts.

The Secretary's and Treasurer's reports were read and approved. There were 29 present this week. Under old business we discussed the hay ride that was planned for last Saturday, Oct. 14 and canceled because of rain. We decided to have it sometime next week and when it is convenient. Under new business, we discussed the supper we are going to put on Saturday, Nov. 4. The chaparrons for the dance will be Del McMillin, Reggie Brown, Judy Judkins and Nancy Fox. We also discussed the OCCYC meetings that are held every other month for Youth groups.

Following the business meeting we divided into groups and put on skits to work out problems that Julie Brown and Jane Luxton wrote up. This took the place of our usual discussion and it proved very interesting as well as being fun. Respectfully submitted, Secretary, Nancy Brown.

EVENING EXTENSION

The Bethel Evening Extension Group met at the Home Ec Cottage, on Tuesday, Oct. 10. The business meeting was called to order by Abbie Brown. The secretary's report was read and approved.

Abbie Brown reported a fourth prize at the Fryeburg Fair on our Fabric Painting display and a five dollar prize from the Norway Fair.

It was decided to have a pot luck supper for our "Know

a month to keep all perishables fresh, also for replacement).

We also advise obtaining a can of multi-purpose food packed by General Mills which is sufficient for 1 adult for 12 days.

Items packed in glass or other than tin should be wrapped in paper for protection against breakage or damage. Keep in dry storage. Home canned supplied also good items. All safety precautions should be taken for storage of cooking equipment using bottled gas or liquids.

SENTINEL

AMERICA'S HOME-TOWN PRESS

This newspaper—along with the 9,000 other weeklies in the nation—takes prideful note of the 22nd annual observance of National Newspaper Week beginning October 15. We'll celebrate by continuing business at the same old stand—getting out the very best issue we can.

Meanwhile, Guy Easterly, the hard-working president of the National Editorial Association and fellow publisher of the LaFollette (Tenn.) Press, has a few words to say about honoring America's home-town press—words that express exactly why we publish this newspaper. Take it away, Mr. Easterly:

"This year's celebration is being launched under the slogan, 'Your Newspaper—Heritage of Truth, Frontier of Freedom.' Nowhere more in Ameri-

ca than in Home-town America is this slogan so true.

"For our community newspaper stands sentinel to guard the American way of life. That is our responsibility. We believe in the heritage of freedom, handed down by our forefathers. We believe in an honest day's work for an honest day's pay. We believe in self-government—that in the hands of the people, our way of life is safe. And we believe that no socialized state or regimented society can replace that which we now enjoy.

"In this National Newspaper Week of 1961, we invite you, the reader, to re-examine your community newspaper, and determine its worth to your community. We invite criticism, for we know that through criticism, your newspaper may be better able to meet the challenge to greater improvements."

Read Matthew 23:1-12

We know that all things work together for good to them that love God, to them who are called according to his purpose. (Romans 8:28).

In my home town in Argentina, we used one of the rooms of an old two-roomed house as a sanctuary for worship. It proved too small for the congregation. We decided to enlarge it by tearing down the partition.

There was not enough money to hire men for this job. Therefore, some men of the congregation gave of their time and work to do it. Many of the women did their share by painting the ceiling and walls and cleaning the floor. Thus both men and women took part in changing the interior of our place of worship.

At the same time we were doing something for our church, we had a chance to get much better acquainted with one another. By this experience we have improved the worshipful atmosphere of our church and deepened our feeling of brotherhood in Christ.

PRAYER: Our Father, we thank Thee for every opportunity we have to do something in Thy name. We rejoice in having many and varied ways, by which we can express our gratitude for all the blessings we receive from Thee. Through Jesus Christ our Lord. Amen.

Thought For The Day
Blessed are those who work together for good and to God's honor and glory.

BROWN CO. OPENING MANY ROADS TO HUNTERS

Nearly a million acres of northern New England wild lands will be open to sportsmen and hunters again this fall, Brown Company President Leonard A. Pierce announced Tuesday.

Following a practice adopted last year, the Company is opening all but one of the all-weather truck roads which give access to over 820,000 acres of timberland in Maine, New Hampshire and Vermont. The land involved includes not only Brown Company wholly-owned land, but also about 300,000 acres of land jointly owned by Brown Company and the Coe-Pingree interests of Bangor.

Isolated parcels of land will be posted "Closed to Hunting" where necessary to safeguard woodsmen engaged in logging operations. Mr. Pierce stated. These include the area on the east shore of Parmachenee Lake, and much of Tim Pond Township, located a few miles west of Eustis. Extensive logging operations are currently in progress at Tim Pond, the Company said.

Company truck roads to be open include the Parmachenee Road, which originates from Route 16 at Wilson Mills, and extends 32 miles north to within 6 miles of the Quebec border, and the Lincoln Pond truck road which traverses in a northeasterly direction 43 miles from Rt. 16 at Aziascoos Dam to Eustis.

Other roads which will be open include the Cupusette truck road, the Corser Brook road at Errol, N. H., which gives access to the Swift Diamond Country, and the Millsfield and Bog Brook truck roads in the Androscoggin River valley.

Only the Kennebeco truck road, which is maintained by and gives access to an area under lease to a private sporting club, will be kept closed, Mr. Pierce said.

While exact figures are not available, Mr. Pierce said that hundreds of hunters are known to have entered Brown Company property, and there had been no instances of vandalism in the 1960 hunting season.

Brown Company has always permitted use of its extensive timberlands by hunters in past years, but it has only opened its principal truck roads to public use in the last year.

Mrs. Alice Tripp, who has lived in the Charles Merrill apartment on Paradise Street for some time, is moving to Cromwell, Conn., to make her home with her daughter, Mrs. James Juliana.

Mr. and Mrs. August Kabbitzer of Long Island, New York, have bought the former Schutt house of Joseph MacGowan. Their daughter and family, Mr. and Mrs. Roger Luce and two children, have recently moved from Farmington to this place.

The telephone and telegraph wires of the Grand Trunk railroad have been placed in underground cables for some distance in the westerly end of the local yard. In the same section drainage ditches are being made by a power shovel and small crew.

SODIUM FLUORIDE PROGRAM TO BE HELD IN AREA SCHOOLS

Children of the Area served by the Bethel Health and Service Council, Inc., have been assured by vote of the council, and separate member organizations, that a topical sodium fluoride program will be held here before the end of the present school year.

The Greenwood Parent-Teacher organization led the way by accepting sponsorship for the program in grades 2, 5, and 8 in their town. Arrangements for the application series for their pre-school children, aged 3½ to 4½ are also being done. Mrs. Lester Bickford, president of the group, and a members of the Council's Dental Health Committee, is in charge of the Greenwood planning. Her committee at present includes, Mrs. Beverly Melville, Mrs. Colista Morgan and Mrs. Grace Haines.

The Council in its quarterly meeting voted to subsidize a share of the financial responsibility by drawing from the Dental budget money previously set aside for corrective dental work for the village children. It also voted to ask the Parent-Teacher Association to co-sponsor this program.

Tuesday evening at the Parent-Teacher Association, the vote was cast to accept co-sponsorship of this program as an association project.

The children of Newry will also be offered this program although contract arrangements are not complete.

application program is a service by the Division of Dental Health, State of Maine Department of Health and Welfare.

In conducting a local program, the sponsors assume responsibility for planning space and facilities; selecting patients; scheduling appointments; and transportation. Financially, the local group pays for the service at a cost of ten dollars per day which is approximately one-third the cost of the maintenance of the service and a very small fraction of the cost per child as compared to sodium fluoride treatment in private dentistry.

After ten years experience of conducting this program in Maine these are the results:

1. Many more children have no decay in their teeth.
2. The other children have fewer decayed teeth.
3. Many more children now receive dental care.

In the application series, each child in the group of preschool, aged 3½ to 4½, and members of grades 2, 5, and 8 will receive a thorough cleaning of his teeth and four successive daily applications of sodium fluoride.

This data is available with further information from Mrs. Samuel Timberlake, Dental Health Committee chairman, or members of the committee, to any interested people.

COUNTRY FLAVOR MOVING IN THE STOVE

From mid-spring until first frost time, the handsome tall, nickel-trimmed, urn-topped base heater sat in a corner of the back room off the pantry, swathed in old and battered quilts.

But along about the middle of the ninth month, Mother would say at Saturday morning breakfast, "Father, I wish you and the boys would move the stove back today."

Technically, it wasn't a complicated operation. On a small-diameter, peeled, hardwood rollers, the heavy stove could be worked along through the kitchen, across the dining room and to its place in the living room. It stood on a thick zinc mat through the months of cold and ice until that warm May day when Mother would say, "Father, I wish you and the boys would move the stove out today."

The ticklish part of moving in the stove was assembling the pieces of metal stove piping. The unconscionable perversity of inanimate objects is one of man's ever-present hazards; and in no realm is the perversity more displayed than when trying to put up a stove pipe with two or three crooks and elbows.

Just when it seems assembled, and one gives a last tap to settle the joints, it comes apart. It requires patience, time and a certain degree of philosophical outlook, but eventually all is ready for the first fire.

Around the old base burner millions of Americans have studied their school lessons, read the papers and journals and watched the orange-red flames through the iron-lasse door. And some of the dreams that have built a nation, have been dreamed while laid watching the channeled hues and listened to the singing of the burning wood.

SAFE WALKING TIPS

PLAYING CHILDREN

When driving near schools or playgrounds, be especially alert for playing children. Youngsters, concentrating on their games, often are un mindful of the dangers of traffic. The pedestrian death rate for children between 5 and 9 years of age is higher than for any other age group up to 55.

Because these youngsters are less aware of the need to walk carefully, you, as a driver, should try to anticipate them. Drive slowly in school and playground areas, the Maine Highway Safety Committee urges, and keep your eyes peeled for each warning sign as a ball rolling into the street from between parked cars or the sound of roller skates. Remember that the child struck down in a traffic accident could be your own.

RESEARCH REVIEW

This week's Research Review discusses silver usage; silver stocks, and National Cash Register Company, a long term office equipment investment. The price of silver stocks has been edging upward on the speculation of silver prices rising in the next year. Conditions are such that silver production plus sales by the U. S. Treasury will not be able to keep up with the demand for silver. Consumption has been rising because of increased usage by silverware manufacturers, new uses of silver in industry, and the increased needs of the photographic industry. Production has varied around 200-million ounces per year with marginal producers' mines closed by high costs of production and low prices. The silver that is derived as a by-product of lead, zinc and copper mining has not been increasing and the U. S. Treasury has steadily been decreasing its supply in making up the difference between consumption and production. Taken as a group, this information has caused people to speculate on a future price increase.

Four present producers who would derive increased earnings from the price increase are: Day Mines, New York & Honduras Rosario Mining Co., Sunshine Mining and United Keno Hill Mines, Ltd. Presently, these four are showing a profit but would increase profit considerably with a price increase. They are all speculative.

National Cash Register Co. offers one of the most attractive ways to participate in sound growth prospects for the office equipment industry. Earnings for this year should approximate \$2.75

per share from domestic sales plus \$0.60 per share from unremitted foreign earnings. It is also estimated that 40% of sales comes from overseas operations and that it has a solid hold inside the European Common Market.

The long term strength of National Cash Register is its excellent management, its world-wide distribution and its leading position in business machines. Another favorable factor for National Cash Register is the increased trend to convert monetary currencies to a decimalized system. If Great Britain should enter the Common Market, the need for decimalization in Europe will be more pressing. Thus far National Cash Register has been making conversion kits for its various machines in the area that have been converted to a decimalized system.

Considering all factors, we would recommend National Cash Register Co. as an excellent value for long term growth investors.

GOULD ACADEMY

Cross Country Team

Gould's winning cross-coun-try team will meet the Phillips High harriers here in Bethel Thursday, Oct. 19, at 3:00 p. m. J. V. Football

Oxford Hills J. V. football squad played Gould Academy J. V.'s in Bethel, Monday, Oct. 16. The Gould team fought hard to win, but came up on the short end of the final score 21-0.

Gould Crushes Mexico 47-0

On a rain-drenched slippery field, Gould Academy ran rough-shod over an under-man-ned Mexico High eleven last Saturday. The Huskies remain undefeated and with a goal line as yet uncrossed.

The Huskies scored only once in the first period, but racked up 3 touchdowns in the second to lead 27 to 0 at half-time. In spite of the weather the Academy team ran up a total of 500 yards from scrim-mage. It was an all round team effort with the line opening big holes for Gould's fleet and hard-running backs; while the defense held the Pintos at bay.

This Saturday the team will travel to Kennebunk to meet a new opponent on their sched-ule. This formerly was the reg-ularly scheduled Norway High date, but the combining of Nor-way and Paris left the day op-en.

TAKE CARE!

We live in a curious, as well as a grim and unpredictable time.

Relations between this coun-try and the Soviet Union never were more tense. There is a strong feeling that a final showdown over Berlin — a showdown which conceivably could lead to war—will come, this fall or winter.

Yet various kinds of rela-tions and negotiations between the two nations go on. Among them is a meeting to discuss a commercial air treaty.

The American negotiators are really going to have to keep on their toes in this. For the American line which would be permitted to fly to Russia if the negotiations succeed is Pan American World Airways, a private enterprise which must pay its own way and attempt to make some kind of a profit for its 40,000 stockholders.

The Soviet line is Aeroflot, a branch of the Soviet Air Force and a wholly-owned arm of the Soviet government. Profit and costs mean nothing to it. Sig-nificantly, the Soviet negotia-tor is a Soviet Air Force gen-eral.

Aeroflot, moreover, is a po-tent and expanding instrument in the Soviet government's eco-nomic offensive against the whole free world. Given a chance, it could present un-

DENTAL CLINIC PROGRAM

Miss Marjorie Linscott, R. D. H., from the Division of Dental Health, State of Maine Department of Health and Welfare, was in this area Tuesday and Wednesday examining the mouths of children in Grade 2. This survey has been conducted as a service to the Bethel Health and Service Council to enable the Council to start its Dental Clinic Program.

Each child was given a general report to take home. In the next two weeks, a follow-up program will take place to help plan a program of corrective care where indicated. Parents will be informed as to how they may enroll for this clinic if they wish. Cars will be planned for children from the area towns in Grade 2 since it is felt that with this age group the funds available will be able to have far-reaching results.

Children examined at the Village Primary School on Tuesday were from the schools in East and West Bethel, and Newry as well as the village. Helping on Tuesday were Mrs. Lawrence Young, Mrs. Avery Angeline, Mrs. Lincoln Fliske, Mrs. Norman Dook, Mrs. Donald Bennett, Mrs. Earl Auger, Mrs. Alberta Coriveau, and Mrs. Samuel Timberlake.

CONSTRUCTION NOTED

The scene changes often on the road and bridge construction between the overhead bridge and Mill Brook. Columns have been poured near the former Guy Morgan store and the metal reinforcement is up for other columns on the opposite side of the railroad. At Mill Brook the water bypasses the location of the new bridge, where Sub-Contractor William Moore's crew is preparing to make forms for the concrete work. Two earth-movers of Contractor H. E. Sargent, Inc., are carrying material from the Paul Carter farm.

Three parts of the new wing of the enlarged Rumford Community Hospital will be established in memory of Arthur N. Stowell, who was long associated with the hospital as director and vice president before his death in 1957.

The memorial units are being built, equipped and furnished by a contribution of \$15,500 to the hospital building fund by Mr. Stowell's family. They include the patients' lounge on the third floor of the new wing, a patient's private room on the second floor, and the visitors' waiting room in the new emergency department on the main floor.

Announcement of the subscription was made by Mr. Stowell's son, Rand N. Stowell, who is a director of the hospital and chairman of the building fund's memorial gifts committee.

Arthur N. Stowell's father, Newton Stowell, was also a director of the hospital and one of its original incorporators.

He is below himself that is not above an injury.

THE WASTELAND

Once upon a time the whole of our continent was a wilderness, inaccessible to all save the hardy and venturesome, its timbers untouched by the lumberman's axe, its plains unfurrowed by the farmer's plow and its hillsides unsullied by the miner's shovel. In Senator Morse's phrase, it was a place of grandeur.

So now the Senate has just passed a bill to preserve up to 15 million acres of what's left of this wilderness. The idea is bound to have its appeal to those, like ourselves, who sometimes regret that our lives take us far from nature. The idea can even move men to rhetoric, as it did Mr. Morse, who proclaims that no one can walk in the wilderness without being "a better man for having come that close to the spirit of the Creator."

The idea seems to have also moved the Senators to forget that if we had left this continent in all its grandeur it would still be a wasteland. This bill doesn't stop at merely preserving natural beauties from unwise "exploitation." These 15 million acres could be put to no use whatsoever. Every inch of its land would lie fallow; all its minerals remain untouched; its trees grow old and die not only unused but unseen. These millions of acres would be serving nothing. For

even roads would be prohibited, and only a handful of the hardy and venturesome would be able even to see its beauties.

And we can't help wondering, now that the bill moves over to the House, if it will occur to anyone to ask what sense it is, in the name of preserving a wilderness, to create a wasteland.—Reprinted from THE WALL STREET JOURNAL, Thursday, September 7, 1961.
